

Road Boss Rally be driven!

Hello there

I do apologise for the RB radio silence of late. I do know that everyone is very eager for any information they can get on both our 2024 Bendemeer Rally and next years Super so hopefully this quick newsletter, as well as some further communications in the coming weeks should bring everyone up to speed.

Apart from running and building a new business I have recently completed a two week mapping survey to Western Australia and also a quick round trip to Queensland for some RBR stuff, business and love jobs all bundled together. Finding quiet and quality time to sit down and concentrate on the RBR and communicate with all stakeholders is tremendously difficult these days however as I always like to say, good things come to those who wait, and what I am working on is most certainly worth waiting for. So if my lack of regular comms is driving you nuts I do apologise, I understand and most certainly I sympathise with you but please take comfort in the knowledge it is not from being lazy or ignorant, I've just bitten off way more than I can chew but I am chewing as fast as I possibly can, I can promise you that. Thank you for your understanding and patience, I truly appreciate it.

All is clear for Bendemeer

I know a lot of people are waiting on my green light for this event and I am excited to confirm that yes it is on 100%. So if you have been holding back for that news, hold back no longer, we are all good to go. The current entry list is on the web site so if your name is not there and you are coming, be sure to jump on and scratch your name on that list.

Currently we have 17 registered and from what I can hear and pick up I think we should be seeing a field of around 25 to 30 cars hopefully.

Once you have registered and as soon as I get a chance I will update all the finer details, but below is how it all unfolds:

Road Boss Rally

It's certainly Super

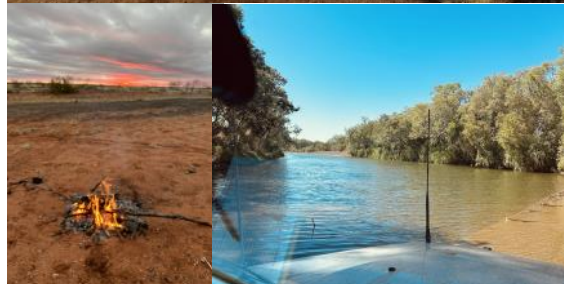

For those that are connected with our Road Boss Rally friends Group on Facebook would have enjoyed following our recently mapping survey to Broome and Back. One of the reasons why I haven't been pushing this rally too hard is that it travels through a lot of country I haven't been in, so I didn't really know what was there and didn't want to spook up something I knew little about.

Well I am very, very please and very, very excited to let everyone know that what I found was exactly what I had hoped would be there. Pure gold!

The 2025 Super from Alice Springs to Alice Springs via the West Coast and Kimberley is certainly going to be a memorable and rewarding adventure for everyone who is able to make it. It sure is a long way to and from the start, then a long way around the track which makes for a very expensive and time consuming journey but I can assure you that you will love every spectacular mile and the money will be inconsequential compared to what we will take away from the this truly ONCE IN A LIFE TIME experience and adventure. Entries are open and trickling in. Like all Supers we limit the volume of entries to keep it enjoyable and manageable so if you are in, get in quick.

My aim and thoughts are that we should see a field of around 30 to 40 cars starting this event. Entries will most likely grow to 50 or more then will settle down as it gets closer. On saying that, I am 100% committed to running this rally so what ever we end up with, we are going. Even if I'm on my own.

Super Trip

Below are the confirmed dates for the Super with the basic essential information. The primary purpose is so you can start planning your trip and look for and book your accommodation in Alice Springs and Broome which I suggest you do immediately.

As you can see we are in Broome for three nights but will only be having a group function on the middle night, so it doesn't really matter where you stay. Just look around for something that suits your crew and budget. The rally function on the Thursday night will be at the Mangrove Hotel which is in near the CBD, however transport and taxis are easy to get so no need to worry about being close by. Friday afternoon we will all be gathering at Cable Beach.

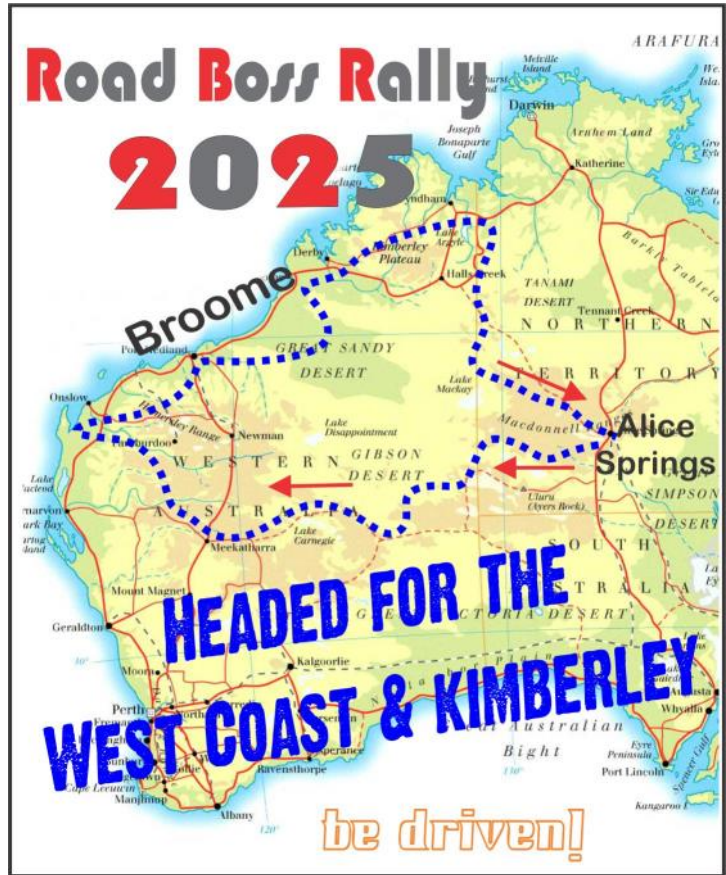

The remaining overnight stops will be announced VERY soon. I am just waiting on some email correspondence to confirm a few things then I will be able to complete the entire picture for you. I know the list below may seem a little vague but rest assured I have a solid plan for each night but I do not want to publicised any information that is not 100% locked and loaded. The 'blanks' are 95% there I just have to finalise and confirm a few things before I fully commit and announce them.

There is going to be a million things I will want to pass on to you all over the next eleven months but this will get you started and everything else will continue to roll on out when and as I feel you are ready for it or I find a bit of time to put it together properly.
