

Road Boss Rally be driven!

Road Boss
Goss!
Dec 2023

Afternoon at the Museum—Thur January 4th.

On Thursday afternoon the 4th January if you are able to sneak over to the Brisbane Motor Museum we are having an RBR gathering for a couple of hours.

It is just a social gathering to talk RBR and catch up with friends face to face while RB is in town and learn about what's install for 2024 and 2025.

All welcome. The museum will be open for business so feel free to arrive earlier to enjoy the facility and grab an afternoon coffee. The current theme at the BMM is Muscle Cars.

Thursday 4th January—2.00pm—4.00pm

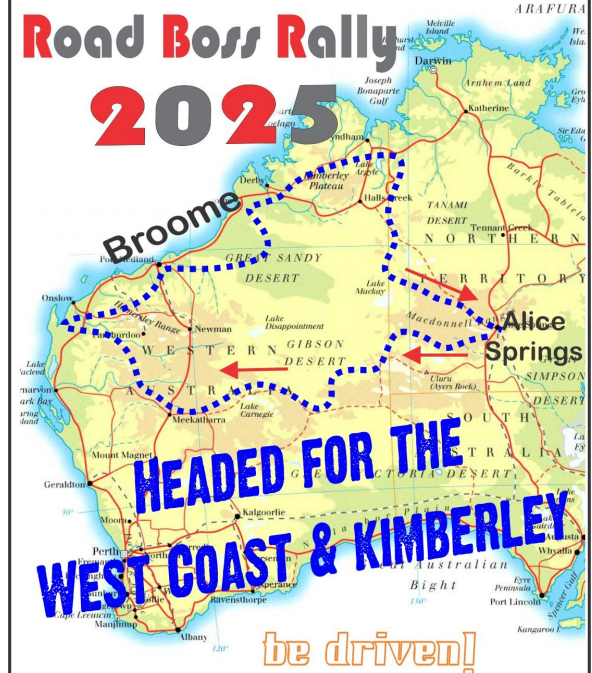

[Brisbane Motor Museum](#), 659 Nudgee Rd, Banyo

2025 Super dates

2nd—16th July 2025 (tbc)

The next important milestone for the 2025 RBR is securing and locking in dates for this big event. There are many factors, events, reasons and seasons that influence when and where we place our rally so it is never an easy task and there is never a perfect scenario that is ideal for everyone. We just have to pick the best of the bunch that we have available and make things work.

The dates that are aligning to best suit this event is July 2nd to 16th 2025. We will confirm this 100% very soon. If it does change in will only be by a week or two and a little later in July, not earlier.

Party in the USA

We always have RBR folk travelling around some far off place on the planet and right now there is a jovial crew tramping around the United States of America with our great mate Roo Arcus.

Darryl & Gail from Car 202 and Gav & Carrol 510 Ooky Spooky are all enjoying a trip of a lifetime in Utah, Colorado, Arizona and California on an Arcus Adventure Tour. Safe travels & can't wait to hear the amazing stories.

GIVIT

GIVIT Still Our #1

While 2024 is set up a little differently to our traditional style with two smaller events rather than just one longer rally we are very proud and excited to let you all know that GIVIT will still be our charity of choice and will receive all of our fundraising proceeds from both the April and September Road Boss Rally's.

Soon we will open up entries for both of these events where you can register and we will set up a MyCause Fundraising page for your car and team. With yet another tough summer season of cyclones, floods and fires GIVIT are stretched across the country doing what they do helping local charities and front line services through the long recovery process.

Good on you GIVIT and we look forward to underpinning your amazing work and having our RBR fundraising efforts spread far and wide helping fellow Australians in times of need.

RB's new Business Venture

Michelle and I are very excited to share some big news with you all, we have just taken on a huge personal challenge and purchased a business here in Alice Springs. We love having a crack at life and never afraid of having a go so when this opportunity popped up unexpectedly we grabbed it with both hands and are now full throttle in our new venture, [Complete Trays & Fabrications](#), or CTF as we like to call it.

It's a long story how it all came to be and what it is all about so I don't want to fill up our RBR newsletter with all the details. We will look forward to when we next catch up and can tell you all about it face to face. We are pretty stoked and looking forward to taking on an adventure of a lifetime breathing new life into this terrific business and creating more opportunities for others here in Central Australia. Alice Springs is a land of opportunity where good people truly can make a positive impact and a difference.

Our CTF office also doubles as RBR HQ and gives us a solid base to run our rally events from. Juggling both our new business and continuing with the Road Boss Rally will be no mean feat but we are the masters at planning, logistics and making things work so the outlook is great. We are also extremely fortunate to have the most amazing people all around who support and allow us to take on huge challenges with confidence and success.
