THE COURSE:

The course is approx 350km over about 5-6 hours. Most of the route is not overly rough, however there are a number of interesting and tricky tracks to travers. Any car in good condition that has good tyres and adequate ground clearance should have no troubles. The course traverses mostly narrow and windy back roads and tracks through interesting and diverse country.

SPECIAL NOTE: *Weather and climatic conditions along with everyone's safety and well being are of the highest priority. Wet & sporadic weather conditions around this region have and will continue to play a part in the direction of the course and the day. Your cooperation and understanding with this is gratefully appreciated. The event is on regardless, however where we go and what we do may be dependant on the weeks & days leading in. Plan A, B, C.....*
